Più di/More than

Trenta/Thirty

Della Rovere più di 30 anni di idee, di progetti e sogni realizzati.

Continuiamo a proporre con successo una visione del mondo office che è emblematica dei tempi, delle evoluzioni e degli stili di vita e di lavoro delle persone. Da sempre, insieme alle grandi aziende che ci scelgono, viviamo ciò di cui noi stessi facciamo esperienza, mettendo ogni volta a disposizione tutta la nostra passione per la qualità, il design e la cura nell'ascolto delle esigenze e delle aspirazioni dei nostri clienti.

Per questo, in oltre trent'anni, non ci siamo mai stancati di lavorare a un ideale di bellezza che possa accompagnare tutti ed armonizzare gli ambienti di lavoro alle persone che li abitano per tanta parte della propria giornata. La tecnologia e il design sono per noi al contempo obiettivo e

strumento: vogliamo che i nostri mobili segnino il passo, come è successo negli anni con modelli epici come la reception Edison o designer illustri come Karim Rashid, Fabio Gigli, Andrea Stramigioli e ora Stefania Tognoloni. Quando nasce una nuova collaborazione, scegliamo dei partner che vogliono condividere fino in fondo i nostri valori, affinché siano evidenti nel prodotto finito, insieme a tutta la ricerca tecnologica e alla perizia artigianale che mettiamo sempre in primo piano. Questa filosofia vale non soltanto per la fase progettuale, ma coinvolge tutta la filiera: dai fornitori ai trasportatori, fino ai rivenditori e dealers, per proseguire insieme un cammino fatto di rispetto personale e per l'ambiente, mantenendo un'alta capacità un basso impatto ambientale.

La nostra storia e esperienza sono una lunga pista di decollo verso i prossimi progetti, in un momento che impone delle scelte radicali nel modo di vivere e condividere gli spazi che riflettano il mondo contemporaneo.

More than 30 years of Della Rovere ideas, projects and dreams came true.

We continue to successfully propose a vision of the office world which is emblematic of the times, evolutions and lifestyles and work styles of people. Together with the large companies that choose us, we have always lived our experience, putting every time all our passion for quality, design and care in listening to the needs and aspirations of our customers.

For this reason, in more than thirty years, we never got tired of working on an ideal of beauty that can accompany everyone and harmonize the workplace with the people who live there for a large part of their day.

Technology and design are both objective and tool for us: we want our

furniture to mark time like what happened over the years with epic models such as the Edison reception or illustrious designers such as Karim Rashid, Fabio Gigli, Andrea Stramigioli and now Stefania Tognoloni.

When a new collaboration is born, we choose partners who want to fully share our values, so that they are evident in the product, together with all the technological research and craftsmanship that we always put in the foreground.

This philosophy applies not only to the design phase, but involves the entire supply chain: from suppliers to carriers, to resellers and dealers, to continue together a path made of personal respect and for the environment, maintaining a high industrial production capacity with a low environmental impact.

Our history and experience are a long one runway to next projects, in a moment that imposes of radical choices way of living and sharing the spaces that reflect the contemporary world.

Azienda Company

Della Rovere è una azienda italiana che da oltre 30 anni produce arredi per ufficio di design. Nel corso degli anni l'azienda si è sviluppata offrendo al mercato soluzioni a 360° per il layout dello spazio lavoro, completando le sue collezioni “scrivania”, con meeting, reception, pareti attrezzate, sedie da ufficio e sofà d'attesa. La produzione è 100% Made in Italy ed è centralizzata nel nuovo stabilimento di 15.000 metri quadrati sito a Montelabbate in provincia di Pesaro. Grazie a macchinari tecnologicamente avanzati, Della Rovere riesce a soddisfare ogni necessità di arredo personalizzando i mobili nelle forme e nelle dimensioni adattandosi alle esigenze di mercato e del cliente.

Della Rovere is an Italian company that for over 30 years has been manufacturing office furniture featuring prestigious and innovative designs. Over the years the company has grown by offering to the marketplace total solutions for workspace layout. By integrating their “workstation” solutions with meeting tables, receptions, partitioning and screen solutions, storagewall, office chairs and waiting room seating. Production is 100% Made in Italy and it is centralized in the new 15,000 square meters factory located in Montelabbate in the area of Pesaro. Thanks to the use of technologically advanced machinery, Della Rovere can satisfy every furnishing need by customizing the shape and size of furniture according to market and customers' requirements.

Produzione & Logistica

Manufacturing & Logistics

Dal 1992 Della Rovere è specializzata nella produzione di arredi per ufficio. I mobili sono realizzati unendo le moderne tecnologie di produzione industriale alla perizia artigianale. Ogni articolo prodotto subisce un controllo qualità completo al fine di garantire la massima efficienza.

Grazie all'esperienza acquisita nel tempo, alla flessibilità produttiva, alla struttura interna e ad una logistica ben organizzata, oggi Della Rovere è in grado di offrire differenti soluzioni progettuali, ovunque nel mondo.

Customer care**

La buona riuscita di qualunque progetto che ci prefissiamo sappiamo che dipende da una squadra che lavora bene, con entusiasmo e crede nel lavoro che sta svolgendo, perché ne conosce il valore. La passione, intesa come entusiasmo è il sentimento che ci guida ogni giorno! Parte integrante di questo processo, senza distinzione, sono i nostri

collaboratori interni ed i nostri clienti: aumentare il benessere percepito delle persone, libere di esprimersi, di sperimentare e di portare il proprio unico contributo. Nell'universo Della Rovere, ogni scrivania, ogni oggetto di arredo è espressione di individualità e ha la capacità di esaltare la personalità di chi lo sceglie e chi lo produce.

**Noi come Voi.
Un concetto chiave
della nostra azienda.**

**You and us: together.
A key concept
of our company.**

The success of any project depends on a team who works well, with enthusiasm. Passion, is the feeling that guides us every day! An integral part of this process, are our collaborators and our customers: to increase the perceived well-being of people, free to express themselves, and to make their own unique contribution.

In the Della Rovere universe, each desk and each furniture is an expression of individuality and has the ability to enhance the personality of those who choose and produce it.

Sostenibilità Sustainability

**Tutti capiscono
che qualcosa è cambiato,
che la sostenibilità è parte
del nostro business**

**Everyone understands
that something has changed:
sustainability is part
of our business.**

La sostenibilità è diventata un valore fondamentale, legato a due elementi imprescindibili per Della Rovere: il design e la qualità. Assumersi la responsabilità del benessere delle generazioni future ci obbliga a rispettare le condizioni che lo garantiscono. E per questo sosteniamo continue analisi dell'intero ciclo produttivo a partire dai materiali

selezionati fino al prodotto finale. Il passaggio alle energie rinnovabili e alla massimizzazione dei processi di produzione sono dunque le nostre nuove fasi di massima attenzione. La nostra visione della sostenibilità è guidata dalla certezza che una produzione sostenibile può contribuire al progresso della nostra filiera.

Sustainability has become a fundamental value, linked to two essential elements for Della Rovere: design and quality. Taking responsibility for the well-being of future generations obliges us to respect the conditions that guarantee it. And for this we support continuous analysis of the entire production cycle, starting from the selected

materials to the final product. The transition to renewable energies and our vision of sustainability can contribute to the progress of our supply chain.
